Fourth War Bond Rally to be Held Tonight at School

Seaman, Navy Lieutenant, County Chairman to Be Present

A rally to be held at Antioch Grade school this evening at 8 o'clock will be one of the initial highlights in this community's Fourth War Loan Drive, which got under way Tuesday.

In addition to Lt. Osborn of the navy, who is stationed at Great Lakes, and James F. Stiles, Jr., chairman of the Lake county bond drive and vice-president of the Abbott company, speakers will include Seaman Hamilton of Great Lakes, who is at present recuperating from active combat duty and will relate some of his experiences.

The rally will be open to the general public and is expected to be well attended.

On Monday Otto S. Klass, Antioch township chairman for the drive, and George Wagner met with County Chairman Stiles to arrange plans for the drive here.

Featured at High School

Antioch Township High school's part in the drive got underway Monday, when a picture of a jeep to be "purchased" through the buying of war savings stamps was posted at the school.

As stamps are bought, each part of the jeep which could be "bought" with the sum of the purchases is to be covered with a sticker. When purchase of the jeep is to be completed, the U. S. Treasury department will be notified that the high school has bought its jeep.

The Oath of Allegiance to the Flag and the singing of "The Star Spangled Banner" opened the program, at which Sammy Klass, president of the student council, presided. The purpose of the jeep was explained by Don Bratrade. Brief talks on the Fourth War Loan drive were made by T. R. Birkhead, principal, and by Otto S. Klass and George Wagner of the bond drive committee.

Although the bond drive will feature a house-to-house canvass, actual purchases of bonds will be made through the two local banks and the post office. Persons wishing to purchase bonds need not wait until they are called upon, since they will be credited with all purchases made during the period of the drive.

Mosquito Tops Burlington Liars' Club 1943 Entries

President O. C. Hulett of the Burlington Liars club in his New Year's Eve announcement listed the following champions for 1943, chosen from among (he says) 6,000 entries:

First—Sgt. Marion S. Fonnesbeck, Toole, Utah.

"The mosquitoes of Maryland were the P-38 type, and when they landed they always filled both fuselages. The first day I was there they completely drained me of blood. The second day I was giving them 1. O. U.'s."

"Months later, when I was stationed in Alabama, the Maryland mosquitoes sent me a card on Father's day because they had so much of my blood in them."

"We tried in many ways to dispose of these pests, including poison gas, but it was all to no avail. We did, however, kill a few by shooting .30 caliber rifle bullets at them. They were mean, those mosquitoes, and it made them mad to have to get out of the way of those bullets. So they'd snap at them as they went by, and before they could let go of that lead, it would jar off their heads."

Honorable mention—Mrs. George Heise, Sedro Wooley.

"The authorities are fussy about fishing along the creeks of the watershed of the city water supply where I live. Everything must be sanitary and you can't use bait for fishing."

"I was fishing with a dry fly one day, wading in a creek, when I stopped to take a "chaw" of tobacco. As I cut it a few slivers fell into the creek."

"Three fish took the slivers and started to chew them. After that it was easy to catch those fish."

"Those fish knew the sanitation rules of the watershed. They came up on the bank to spit."

Special mention—B. H. Clark, New Orleans.

"I spent one hour and 50 minutes the other night trying to convince my mother-in-law that I was drunk."

Mrs. W. C. Petty will give a book review at a literary tea to be held at the home of Mrs. E. C. Rich, Grayslake, Jan. 21.

Electric Appliances "Swap" Campaign Bringing Results

The "swap" campaign in which War Stamps are given in trade for idle or broken electric appliances is meeting a favorable response in Antioch, according to Carey Electric and Plumbing shop and the Wilton Electric shop, who sponsor the plan here. The campaign is part of a movement resulting from the recent nation-wide appeal of the War Labor Board that homes be searched thoroughly for work-saving devices now out of use, to be repaired and made available to war workers and others now doing without them because of wartime manufacturing restrictions.

Since the opening of the drive in Antioch many toasters, lamps and flat irons, as well as larger appliances which had been gathering dust in attics, cupboards and basements have been unearthed and delivered to the stores for resale.

"Especially active is a large number of boys and girls who have gained their parents' permission to search their idle appliances as a means of filling their War Stamp Books," it was said. "Grownups have expressed pleasure at participating in the sharing aspect of the swap campaign, hoping a neighbor is helped by their old appliance. The campaign will continue for several weeks."

News of the Boys in Service

William F. Morgan, son of Mrs. Earl Gibbs, Antioch, is among the 340 boys from Illinois who have been training at the pre-flight school of the San Antonio aviation cadet center in Texas.

As stamps are bought, each part of the jeep which could be "bought" with the sum of the purchases is to be covered with a sticker. When purchase of the jeep is to be completed, the U. S. Treasury department will be notified that the high school has bought its jeep.

The Oath of Allegiance to the Flag and the singing of "The Star Spangled Banner" opened the program, at which Sammy Klass, president of the student council, presided. The purpose of the jeep was explained by Don Bratrade. Brief talks on the Fourth War Loan drive were made by T. R. Birkhead, principal, and by Otto S. Persons wishing to purchase bonds need not wait until they are called upon, since they will be credited with all purchases made during the period of the drive.

Aviation cadet training for air crew-pilot, bombardier or navigator is still open to men between 17 to 26, inclusive; Capt. F. A. Wilgus, president of the Chicago Army Aviation Cadet school, 166 West Van Buren street. Many from Antioch and vicinity are included in this total.

Excellent co-operation on the part of townspersons has been aiding the campaign, Kutil announces. A large stock of paper has been picked up by the grade students and stored at their depot at the Mapleton filling station.

A considerable store is also accumulating at the high school salvage station.

Persons who have a considerable quantity of paper to be picked up may make arrangements by telephoning Kutil at Antioch 214 or 296.

Smaller quantities may be tied in bundles or placed in boxes for pickup within the village limits Saturday.

Persons living outside the village may bring the paper to the salvage depot at the school.

Voters Who Are Unregistered May Sign Up Jan. 29

Registration to Take Place at Antioch Village Hall 2-9 P.M.

All qualified voters of Antioch who have not as yet registered under the Permanent Registration Act may do so at the Antioch village hall Saturday, Jan. 29, from 2 p.m. to 9 p.m., it was announced this week by William A. Rosing, township supervisor.

While a large proportion of the Illinois voters were registered under the Permanent Registration Act in the fall of 1942, when it was inaugurated, it is believed that there are many others as yet unregistered.

These include persons who have reached the age of 21 since that time, or will have reached it at the time of the primary election this coming April, and persons from other states who have been drawn to Illinois as war workers, agricultural workers or for other reasons.

Special Provisions Made

Provision is made in the statutes whereby an otherwise qualified voter who for some reason has been unable to register may vote in one (and only one) election during the period between the time when the law was enacted and the first Tuesday after the first Monday in November, 1946. However, it is recommended that to save time and confusion all voters who have not as yet registered do so on Jan. 29.

High School to Conduct Salvage Drive Saturday

Antioch Township High school students have announced this coming Saturday, Jan. 22, as "Pick-up Day" for their part in the paper salvage drive. C. L. Kutil, local chairman, announced.

Grade school students conducted a curb pick-up Tuesday, with the assistance of the village street department truck, which will also aid in the high school campaign.

The only explanation which can be offered is that last spring when a Bristol farm fire occurred, water from a stock tank was put into the fire department's booster tank. If that is the explanation, and it is the only logical one offered, then the fish has lived in the tank all summer.

Excellent co-operation on the part of townspersons has been aiding the campaign, Kutil announces. A large stock of paper has been picked up by the grade students and stored at their depot at the Mapleton filling station.

A considerable store is also accumulating at the high school salvage station.

Seven Gerber Brothers are In U. S. Service

Family of Former Antioch Man Is Well Represented in Armed Forces

T/S William ("Bill") Gerber, formerly of Antioch and now of Camp Breckinridge, Ky., is one of seven sons of Mr. and Mrs. Simon Gerber, Sun Prairie, Wis., serving in the armed forces.

The others include Cpl. Fritz, Camp Shelby, Miss.; Sgt. Rudy, North Africa; Cpl. Max, San Angelo, Texas; Cpl. Walter, Australia; S/Sgt. Ernest, Australia, and Clyde, S 1/c, who trained at Farragut, Idaho.

Alwardt Sends Five

Another "record" service family is that of the William Alwardt, Lake Villa, who at one time had five members of their family in the service. One, former Cpl. Norman Alwardt, who was at one time stationed at Camp Livingston, La., later received a view of Hotel Mark Hopkins, top of Nob hill, but he forgot to "x" one of the rooms.

Carl S. Clingman sends a post card from San Francisco, Calif., to say that he is out there "for a while to gather some sunshine." He is finding plenty, he states. His card shows a view of Hotel Mark Hopkins, top of Nob hill, but he forgot to "x" one of the rooms.

The Great BIG "IF"

"March of Dimes" Campaign Is In Progress Here

Postmaster Roy I. Kufalk Heads Committee for the Drive

Antioch has had real reason during the past two or three years to realize the importance of the "March of Dimes" program for the relief of infantile paralysis victims, Postmaster Roy I. Kufalk, local chairman for the nation-wide campaign now in progress, points out.

"One half of all the money contributed here remains in the county for direct use in its communities," Kufalk reminds contributors. "Antioch also receives credit for dimes sent in direct to the President, and one-half of that money is returned to Lake county for use right in the communities."

The balance of the money contributed is used in such work as maintaining and conducting centers where infantile paralysis sufferers may receive treatment, such as the Foundation at Warm Springs, Ga.

Theaters Aid Effort

The Lakes theater has volunteered the showing of a special screen "trailor" to aid the program, and will help in making collections.

While Manager Fred B. Swanson of the Antioch theater could not be contacted before this week's issue of the Antioch News went to press, it is believed that he also is making special plans to aid in the campaign.

Have Local Cases

This year occasion arose to aid one local case, by paying a hospital bill, in full; last year, a case was aided in similar fashion, and benefits were also received by local sufferers the preceding year.

Boxes have been placed about the village for the receipt of collections, and donations may also be made direct to Postmaster Kufalk.

Worst in 12 Years

The infantile paralysis outbreak in 1943 was the worst in 12 years, with almost 12,000 persons, including men, women and children, stricken.

A number of cases were reported in Lake and McHenry counties, as well as in Cook county.

The total cost of the 1943 epidemic cannot be estimated, as many of those stricken may still be patients in years to come.

Contributions in years past have lessened the toll by providing prompt medical attention which has spared many from severe crippling effects and saved many dollars that would otherwise be needed to counteract the effects of neglect.

Deadline for Hunters' Reports Now Feb. 10

Illinois hunting licenses carry a stub on which sportsmen are required to make a report of game killed. Although the licenses state that these reports must be mailed in by January 15, the actual deadline is February 10, the General Assembly having extended the time after the licenses were printed. The State Department of Conservation, reminding hunters of the extension of time, says in case the stub is lost from a license the required report may be made on a postcard.

The open season on rabbits runs until January 31 in all sections of Illinois, giving hunters the longest shooting season on this game they have had for many years.

Control of Livestock Diseases Studied by Illinois Veterinarians

The control and elimination of livestock disease, matter of vital concern to farmers under present wartime conditions, were considered by prominent Illinois veterinarians at a meeting in the Elks club, Springfield, beginning at 9:45 a.m. Wednesday, Jan. 19.

Those attending from this region included Dr. G. W. Jensen of Antioch.

Bovine tuberculosis, Bang's disease and mastitis were included in the list of subjects discussed.

Lions to Meet at Soper's Spa Monday

William M. Marks is chairman of the program for a meeting of the Antioch Lions club to be held at Soper's Spa Monday evening, Jan. 24. The speaker has not as yet been announced.

Miss Mary Stanley has been a patient at St. Therese hospital, Waukegan.

A Step Toward Progress

The extent to which the problems of debt and taxation can affect progress in the United States was lately summed up by a noted financial writer in language any layman should be able to understand. He declared that: "A part from the danger of inflation getting out of control, one of the worst features of a mounting debt burden is the scramble of different groups of taxpayers to shift the taxes to other shoulders. In this struggle for advantage, the contest is almost inevitably resolved in favor of those groups having the most political power. What emerges is a tax system based more upon political expediency than upon sound economic considerations."

Public debt and the burden of lopsided taxation on the most productive elements in the country have grown so great that some equalizing adjustment must be made after the war is over or dreams of full employment and general advancement will not materialize. There is no use adopting a hardboiled policy in the belief that government will take care of us if private industry fails. If private enterprise fails, so will the government—the government lives by the productive effort of private enterprise the same as the rest of us. And it should not be forgotten that individuals laboring in the hope of reward are, in the last analysis, the spark-plugs that keep the machine running.

These are simple truths that we are dangerously close to forgetting. The most important step that has been taken in many months toward insuring continued progress in this country is the widespread movement to limit by Constitutional amendment the peacetime taxing powers of the Federal government.

Tribute Well Earned

Producers and retail distributors received a well deserved tribute from the President recently, when he said: "Despite the impact of war demands, domestic distributive channels have been kept open to a great degree. It has not been possible to keep all markets supplied with all the things we would like to have, but the essentials have been available in sufficient quantity to meet the needs of industry and the consumer."

"This has been due to the splendid job done by our means of distribution and the intelligent way in which producers have allocated their output."

Dry Beans

Gardeners who have snap beans maturing on the vines may wish to let the pods ripen and dry to furnish some dry beans for winter use. After frost the plants are pulled and dried, the beans are threshed out, and stored in a dry place. For control of weevils they should be treated with carbon disulfide or other fumigant, available from most drugstores or seed stores.

Stroke in Time

"When attended to at the first sign of need, paint jobs can be accomplished at comparatively little expense," says the Federal Housing Administration. "When neglected, repairs can run into considerable sums. It is the duty of every American home owner to maintain his property in good sound condition during these days of emergency. It is a duty which he owes to himself as well as to the whole national structure of the country."

Of the materials used in electrical equipment, one of the most essential is mica, long supplied mainly by India.

May Burst Open

Early cabbage will stand for some time, but particularly in times of heavy rain, the heads are apt to burst open.

Quartz for Radio

The chief war need for Brazilian quartz is for radio oscillators. Pieces the size of small wafers are used in transmitters and receivers to control frequency transmission. Due to its "piezo-electrical" property of the quartz, the oscillator vibrates only to its assigned frequency. The quartz makes it possible to achieve precision tuning.

Since 1934, when real estate taxes reached their low point in the depression, yearly changes have been less than 3 per cent. At the end of the period, 1934-1943, average taxes per acre were virtually the same as at the beginning.

Call out the reserves-

One thing we've done to maintain good telephone service—all up and down our territory—and still meet war needs is to bring back from storage many of the old-style upright telephones. They are just as reliable, just as serviceable as the newer hand sets.

Our whole program has been one of redesign and research and reuse, to save war-vital materials. This work began before Pearl Harbor and has been stepped up progressively ever since. We've saved many thousands of pounds of copper and other materials. We've been able to salvage vast amounts of critical metals and still keep telephone service at a high standard.

And we intend to stay on top of that job, doing our best to give everyone all the service there is. . . . Fast service! Efficient service! Service with a smile!

Rook Report**Title—Lassie Come Home****Author—Eric Knight**

This book was about a beautiful collie named Lassie. She was owned by Joe Carralough. There were a lot of people who wanted that kind of a dog, especially a certain man named the Duke of Rudlingham. He had a lot of money and was trying to get all the expensive dogs he could cheap, then make some money on them. The Carralough family was not very rich and at that time Joe's father didn't have any work, and they needed money to live on so the Duke of Rudlingham bought Lassie. Lassie didn't like the Duke nor his kennels.

Lassie kept running home from the kennels, then the Duke would have to come after her. Joe didn't like to see her go because he thought so much of her. The Duke was getting mad because Lassie kept running away. He took her to his home in Scotland. Lassie didn't like it there either, so she started on her way home even though it was some 1000

miles. She finally reached home after traveling about 6 months. When she reached home she was weak from hunger.

The members of the church board and their wives enjoyed a buffet supper at the Messersmith home on Friday evening after which the board held its regular business meeting.

Mrs. Ethel Sounders of Syracuse, N.Y., left for her home on Sunday after spending a week at the home of Mr. and Mrs. Chris DeYoung.

Mr. and Mrs. Frank Hauser and Phyllis were dinner guests at the Frank Edwards Sunday.

Mrs. Kenneth Crowley and Mrs. John Edwards and son of Libertyville were dinner guests at the Frank Edwards home Sunday.

India Produces Most Burlap

The first power-driven mill for spinning jute yarns in India was set up in 1855 at Rishra, 12 miles above Calcutta on the Hooghly river, and soon produced eight tons a day. Four years later the first power-loom mill for making burlap was established at Barragore. It had 102 looms. Not until 35 years ago did the mills of India spin more jute than India exported. They normally produce 90 per cent of the world's burlap, and use more than a million tons of jute a year.

Teacher Shortage

A survey made in the fall of 1942 revealed that more than 2,000 schools, mostly in rural areas, failed to open that fall. There was a shortage of at least 75,000 teachers in the nation at large, and it was estimated that 2,00,000 children were receiving an education below the standards considered acceptable a year before.

S. Sgt. G. De Young Weds New York Girl

The home of his brother Frank J. De Young of Millburn, was the scene of a wedding at which Staff Sergeant George De Young took as his bride Miss Patricia Ann Saunders of Syracuse, N. Y., Tuesday evening, Jan. 11, at 7:30 o'clock.

The bridegroom is the son of Mr. and Mrs. Chris De Young of Waukegan. The bride's mother, Mrs. Ethel Saunders of Syracuse, was there for the ceremony.

The Rev. L. H. Messersmith read the service. Miss Margaret Denman and Frank De Young attended the couple as bridesmaid and best man.

Mrs. James Spiegel assisted as hostess for the reception and supper held immediately after the service.

Out-of-town guests included Mr. and Mrs. Earl Whidden, Mrs. Joseph Cline and Mrs. Giles Kingsley of Downer's Grove, Mr. and Mrs. A. G. Taylor and daughter, Ruth, of Waukegan.

Sgt. De Young left this week to resume his duties with the army air corps at Augusta, Ga. His bride is returning to her New York home temporarily. Sgt. De Young has been in the service since August, 1941.

INFANT DAUGHTER OF STILLSONS CHRISTENED

Goldie Marie, "Dee" Stillson, 12-weeks-old daughter of Mr. and Mrs. M. M. Stillson, was christened at St. Ignatius' Episcopal church Tuesday evening, with the Rev. A. D. McKay officiating. Mrs. J. E. Brook, Mrs. W. C. Petty and T. R. Birkhead acted as sponsors.

For her christening Baby "Dee" wore a dress of fine batiste, trimmed with drawn work, which her mother had worn when she was christened; a tiny gold cross that was the gift of faculty members at Antioch Township High school, and hand-made white shawl wrap and slippers.

The baby's grandmother, Mrs. R. F. Benser of Violin, S. Dak., who has been visiting here for the past few weeks, was among the out-of-town visitors present.

A reception was held afterward at the Stillson home, where the table centerpiece featured pink candles, and two cakes decorated in pink, blue and green. One of the cakes was baked by "Dee's" older brother, Melfred, and the other by the baby's mother.

Boosters to Seek Revenge Against Ingleside Recs.

The Antioch Boosters, who were licked by the Ingleside Recreation team in their last match, held here, will be out for revenge next Sunday night at 8 o'clock, when they will bowl against the Inglesiders on the latter team's home alleys.

Sunday afternoon, a live match took place between the Antioch Recreation team and the Johnson Sea Horse club, with the Sea Horses rolling up a tidy 2001 for their total, to snatch the honors from the Recs, with a mere 2716 total.

Ogrin was high man for the visitors, with 078 to his credit, as against Walters' 574 for the locals.

Plans for the Men's no-handicap sweepstakes to be rolled on Feb. 5 and 6 are now complete and although the tariff for the tourney is set at \$5.00 the entry is expected to be large. The event is limited to bowlers who are carrying averages up to 186 and will consist of six games across six alleys. Prizes will be figured on the usual percentage basis.

No date has been set for the Men's Handicap sweepstakes but Manager Lou Bauer of the local maple lanes expects to have the event lined up during the next week and will be ready to accept entries.

Men and Women bowlers will compete together for the first time this year when the Mixed league bowlers will fire the first strike ball into the pins this Sunday evening at 7:30. The league, which is limited to about 20 bowlers, is a new departure from the standard league in that keglers, who do not "show up" will not be required to pay. Prize money will be paid weekly. There are still openings for a few bowlers, according to Ken Ashe, who is in charge of organizing the new league.

Reprinted from the La Salle County Ledger, which in turn reprinted it from the Oregonian Sunday magazine, is the following Kiplingesque poem by Corp. Ralph E. Torgerson, an Oregon man—

Somewhere in New Guinea, where the sun is like a curse
And each long day is followed by another slightly worse;
Where the brick-red dust blows thicker than the shifting desert sand, And a white man dreams and wishes for a greener, fairer land.

Somewhere in New Guinea, where a woman's never seen,
Where the sky is never cloudy, and the grass is never green,
Where the dingo's nightly howling robs a man of blessed sleep, When he crawls into his pup tent for a haven of retreat.

Somewhere in New Guinea, where the nights are made for love,
Where the moon is like a searchlight, and the Southern Cross above
Sparks like a diamond necklace in a balmy tropic night;
It's a shameless waste of beauty, when there's not a girl in sight.

Somewhere in New Guinea, where the mail is always late,
Where a Christmas card in April is considered up-to-date.
Where we never have a payday, and we never have a cent,
But we never miss the money, 'cause we'd never get it spent.

Somewhere in New Guinea, where the ants and lizards play.
And a hundred fresh mosquitoes replace every one you slay—
So take me back to Oregon, for that is now my yell,
For this Godforsaken outpost is a substitute for hell.

A/C Robert H. Pedersen, 20, son of Mr. and Mrs. Alfred J. Pedersen, Route 2, Antioch, has reported to the Altus Army Air field, Okla., for the final nine-week phase of his pilot training. From Altus he will either go on to train with the multi-engined bombers or fighters that he will ultimately fly in combat zones, or he will be sent to Central Instructor's school at Randolph Field, Tex., to learn how to instruct other young men training for their silver wings.

"Will you please change my address again?" asks 1st Lt. Elizabeth Corrin, now at Ft. Washington, Md. "I shall be here for seven weeks attending the Adjutant General's School. Then I'll be back to my home station, Buckley Field, Colo. It certainly means a lot to receive the news each week and keep up with all the events in Antioch. Many thanks to the News and the American Legion for sending the paper."

Set Aside 2,000 Acres in Iroquois County as Game, Fish Preserve

Following a study of reports and recommendations, Governor Dwight D. Green has just approved the State's purchase of two thousand acres in northeastern Iroquois county as a public game and fish preserve. The last regular session of the Illinois General Assembly appropriated \$150,000 for the purchase of such lands. The Iroquois county tract contains natural cover for pheasant, quail and squirrel.

Governor Green has also approved the purchase of 133 additional acres along the Illinois river in Marshall county as an enlargement of the Sparland public shooting grounds, other tracts will be purchased later.

Hemp Growers Meet at Union Grove Rural Normal

Hemp growers for the Union Grove, Wis., hemp mill held a meeting in the Racine-Kenosha Rural Normal school Friday afternoon. A number of farmers in this region became interested in the growing of hemp during the past year. The fiber is used to fill needs formerly met by imports.

Grade School News

THIRD GRADE

Four boys joined the Cub Scouts; Bruce and Fred Stahmer, Jim Omond and David Petty.

Our class is having tap dancing under the guidance of Mrs. Knapp.

We have completed our library. It is finished in red and white.

The third grade has a new student, Don Masopust from Melrose Park, Ill. We have made Indian pottery for social studies.

Marlene Wertz is a second Sonja Ilenie, she has her own pond to skate on.

The third grade celebrated Carol Loftus' birthday last week. She brought candy for all.

Jack Nelson has a birthday this week.

FOURTH AND FIFTH GRADES

Last week our Friday morning program was arranged by the following committee: George Nelson, Shirley Testdorff, Kenneth Rentner, and Betsy Message.

The program:

Rose Ann McGreal, Joanne Omond, Patsy Weber and Charlene Nelson sang "With My Head in the Clouds."

Barney Cosgrove and Eddie Blum sang the Army Air Corps song. Sue Scott played "Put Your Arms Around Me Honey" on her horn.

We invited the third grade in to see it and after the program we all sang "You're a Grand Old Flag."

We are making spatter painting for our room.

SEVENTH GRADE

The pupils of the seventh grade are making pictures of winter scenery for their border.

The best ones are to be chosen from the others and are to be put up on the bulletin board in their room.

The pupils of the seventh grade are writing themes which are chosen by four other children of this room. Every Monday these are written, corrected and copied over in ink.

There are first, second, and third prizes for these themes.

There has been a chart made for this purpose.

So far the winners are 1st prize, Jim Phillips, June Hunter; second, Elsie Farnsworth, Norma Jarnigo; third, Jane Hunter and Ronald Gaa.

PAPER DRIVE

Again the grade school boys are out of scrap paper. Because of the good weather, the boys started early. They started Tuesday instead of Thursday. And will continue until they have all the waste paper gathered.

The paper will be stacked at Maplorthorpe's Service station next to the mill.

If anyone has waste paper and would like to contribute it to the Grade School Paper Drive you can leave it at Maplorthorpe's Service station. Again as in the October drive the Village has furnished the truck for picking up the paper.

Tighten Deferments

In an effort to ease the dad's draft, Selective Service officials called a halt to the granting of occupational deferments to youths between 18 and 21, except those engaged in agriculture.

As a result of the order, at least 115,000 non-fathers are expected to become eligible for induction, although 11,000 dads between 18 and 21 will fall under the new regulation.

High school students are to be allowed to complete their education, but college deferments will be suspended except for critical courses like medicine, dentistry or veterinary, and the number of youths permitted to major in scientific fields after graduation will be restricted to 10,000.

Although 446,000 fathers were expected to be called by January 1, only 90,000 actually were inducted.

RUSSIA:
Polish Boundaries

Declaring that it does not consider prewar Poland's 1939 borders unchangeable, Russia proposed the creation of new frontiers along lines suggested by Great Britain in 1919, which would place White Russia and the western Ukraine in the Soviet union.

Brought to the fore by the Red armies' advance into the disputed territory of prewar Poland, the boundary question has found the Poles' government-in-exile in London insisting on restoration of the prewar frontiers. In its latest proposal, Russia suggested that the Poles annex other territory inhabited by its people, like East Prussia, to lay the foundation for a postwar state.

Reds Surge On

An argument over the Polish eastern boundary went on, Russian forces surged forward in eastern prewar Poland and gradually hammered down the German front in the great Dnieper bend.

With one eye peeled on Allied movements in western Europe where invasion preparations were underway, the German high command fought a defensive war, refusing to throw its mobile reserves into a large scale action in the east.

Instead, the German policy appeared to be maximum resistance to the Russian steamroller until superior forces necessitated a withdrawal, and repeated troop movements along the wide front to prevent a complete Russian breakthrough to their rear, where encirclement might trap their entire forces.

EUROPE:

Pound Balkan

As the invasion hour drew near, huge Allied forces were being massed in Britain, with the Germans saying reconnaissance showed that the attack might take the form of a pincer movement against the continent.

As both sides girded for the showdown in the west, U.S. fliers struck hard at German supply and communication centers in the Balkans, particularly pounding the Bulgarian capital of Sofia, hub for railroads radiating to Rumania and Yugoslavia.

In Italy, U.S. troops continued their advance, beating through tangled German defenses with machine gun and mortar fire, after heavy artillery preparation.

HIGHLIGHTS . . . in the week's news

INCOMES: A decline of 3 per cent in individual incomes was noted in November, compared with October, the commerce department reports. Nevertheless, November figures were 16 per cent, or 12 billion dollars, above the November, 1942, totals, which were about 10½ billion dollars. Total income for 1943 is estimated at 142 billion dollars, highest in history.

SOLDIER VOTE

Gov. Ellis Arnall (seated) signs soldier vote bill.

First state to pass legislation on soldier voting, Georgia's bill calls for ballots to be sent servicemen overseas after they have registered through applications mailed to them by request of themselves or friends. Servicemen will return the registration applications and then the ballots by mail.

Designed to simplify balloting by the state's 250,000 servicemen, Georgia's soldiers' vote bill was passed after five days' debate, then speedily signed by 35-year-old Governor Ellis Arnall.

Second state to shape a soldiers' vote bill was West Virginia, which permits a serviceman's family to register for him, with ballots returnable up to election day.

AGRICULTURE:
Wheat Loans

Completion of loans on 127,277 bushels of wheat by the Commodity Credit Corporation during 1943 showed a sharp drop from the 386,297,084 total of 1942.

During 1943, farm stored wheat was estimated at 43,605,701 bushels, and that in warehouses at 83,041,907.

Feed for Southwest

To help relieve feed conditions in storm areas of the Southwest where wheat pastures have been covered by snow, Commodity Credit corporation has made an emergency allocation of 20,000 tons of soybean meal. Southern cottonseed mills are processing this cake, with extra allotments being made from the government's share of a special crush of 13,000,000 bushels of soybean.

Hog Embargo

A steady stream of trucks, sometimes forming a waiting line two blocks long, delivered 57,000 hogs to Chicago's sprawling stockyards on the opening day of last week's marketing, and when the first two hours of buying had filled packers' needs, there was a holdover of 77,000 pigs.

Many receipts were credited to hogs received from other crowded markets, the farmers again were asked to curtail shipments as the War Food administration considered imposing an embargo on deliveries. As a result of the glut, Chicago yards paid an average of \$13.20, compared with \$14.80 last year.

MODERN OPERA:

Executes Son-in-Law

In action as melodramatic as any Italian operatic tragedy, Benito Mussolini's reorganized Republican Fascist government executed the Duce's former foreign minister and son-in-law, Count Galeazzo Ciano, to death for plotting to overthrow the old regime.

Also executed were four other members of the Fascist grand council, which voted to overthrow Mussolini during the early hours of July

1. A bill to tax all unreasonable individual and corporate profit;

2. Continuation of the present law to rewrite war contracts to remove excessive costs;

3. A law placing minimum prices on farm products and ceilings on consumer prices through subsidies.

4. Continuation of the price and wage fixing law, expiring June 30.

Of the soldier draft, FDR said:

"I recommend . . . a national service act which for the duration of the war will prevent strikes, and, with certain appropriate exceptions, will make available for war production or for any other essential services every able-bodied adult in this nation."

Freeze Security Tax

With the social security reserve fund for 1944 estimated at five times the amount of payments due in any of the next five years, the Senate cast a 48 to 17 vote to keep the social security payroll tax at 1 per cent each for employee and employer.

Although Senator Barkley (Ky.) declared extension of the low rate now would only mean increase of the rate later on to meet cost of disbursements, Senator George (Ga.) said the present 1 per cent rate would "completely protect the solvency of the old age and survivors benefit fund."

Retention of the present rate would save employees and employers alike 1½ billion dollars a year over the proposed doubling of contributions, Senator Vandenberg (Mich.) said. The Senate's action marked the third time it blocked a rise in the rate.

SOUTHWEST PACIFIC:
Taunks Lead Way

Pressed back by fighting U.S. marines on Cape Gloucester, New Britain, Jap troops gave ground only after vicious combat, in which both sides used artillery to batter at defense positions through heavy jungle foliage.

To the west, Australian units continued their march up the coast to join up with U.S. forces, which landed at Saidor 60 miles to the north. Jap machine gun and mortar fire slowed the Aussie drive to a walk, but the enemy were scattered when tanks were brought up to lumber through the rugged defenses.

With part of the naval personnel getting a long-needed rest, the remainder were working double-time supplying Allied ground forces in the Southwest Pacific area, with many at their posts since last April.

YOUNGEST MOTHER:
10 Years Old

Reputed to be the youngest mother ever to give birth to a child in the U.S., a 10-year-old Negro girl bore an 8 pound 8 ounce girl in Monahans, Texas, through natural delivery.

"The child never did know what was happening," said her physician, Dr. J. E. Cook. "She had been told she was going to have a baby, but she wanted to get right up and go out and play with the other children."

Even for a 10-year-old girl, the young mother is small, Dr. Cook said.

CAN'T FIGHT

Members of congress are barred from the armed forces, the President ordered following a conference with the attorney-general. It was decided that the Constitution forbids a man from serving as a legislator and a soldier or sailor at the same time.

Apparently only two representatives would be affected: Henry Jackson of Washington state, now a private in a tank destroyer unit, and Albert Gore of Tennessee, stationed at Camp Shelby.

TREVOR

Several of the school children enjoyed a skating party at Camp Lake Friday evening.

Lee Wilson spent Saturday at the Earl Vyvyan home in Union Grove. Mrs. Howard Waters was a business caller in Burlington Friday.

Mr. and Mrs. H. J. Beck and daughters, Inga and Betty May, Racine, were Sunday visitors at the Alfred Dahl home.

Eldred Wilson, Silvernails Corners, visited his brother, Lee, Wilson and family, Sunday.

Mr. and Mrs. Pete Schumacher, Mr. and Mrs. George Schumacher and daughter, Melrose Park, were Sunday visitors of the former's mother, Mrs. O. Schumacher, and brothers, Henry and John Schumacher.

Sunday visitors at the Miss Sarah Patrick home were Mr. and Mrs. Russell Jones, Kenosha, Mrs. Gertrude Davis, Bassett, and Mrs. Byron Patrick, Salem.

Mrs. Anna Jacobsen is spending this week in Racine, visiting relatives and friends.

Miss Sarah Patrick, Mrs. William Kruckman and Milton Patrick were dinner guests of Mr. and Mrs. Byron Patrick, Salem, Monday evening.

Mr. and Mrs. Joe Fernandez and son, Don, were in Waukegan Wednesday.

Mrs. Anna Stenzel and daughter-in-law, Mrs. Lawrence Stenzel, Wilmette, were callers Tuesday at the Joseph Smith home.

Mrs. May accompanied Wilson Ruyard and mother, Mrs. Nellie Ruyard, to Riverside, Ill., on Sunday, the latter leaving Tuesday for Hot Springs, Ark., to visit Mr. and Mrs. James Walsh.

Mrs. Allen Copper and daughter, Frances, and Mrs. Harry Dexter, Jr., and son, Charles, were Antioch shoppers Wednesday.

Miss Emma Zalzwedel and nephew, Edward Zalzwedel, Woodford, Wis.,

This is what we've been working for all along. This is the year to hit and hurt the enemy. This is the time when everything you do counts double. If we all get together and do all we can, we'll be over this hurdle and well on our way to complete and crushing victory.

No question about the men in uniform—they'll go "all out." But can we count on you to back them all the way? Your quota is where you work—you've got to buy your War Bonds and then buy more, until every last loose

cent you have is fighting. Tough? Of course, it's tough—unless it is a sacrifice you're simply not doing your share!

Make the sacrifice now—buy more than the extra \$100 Bond your country counts on you for—winning the war is worth any sacrifice you make. Besides, you aren't giving, you're lending to America! You'll get back every dollar you invest in War Bonds, with interest.

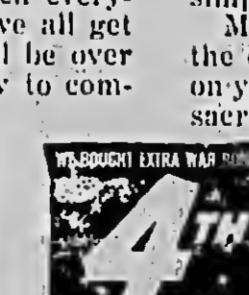

An extra \$100 War Bond now is the minimum for everybody—can't we count on you for more?

This sticker in your window means you have bought 4th War Loan securities.

Let's All BACK THE ATTACK!

WE BUY U.S. WAR BONDS

4TH WAR LOAN

This window sticker identifies you as the purchaser of extra War Bonds during the Fourth War Loan. It is a badge of honor to be displayed with pride. Be the first in your neighborhood to have one. Buy an extra War Bond today!

Facts about the Fourth War Loan

The man responsible for the Fourth War Loan drive in your community has full information about the several types of War Bond investments available to you. Ask about all of them. One may suit your needs better than another. You may find that you have been missing something. And whether you are asked to buy extra Bonds or not, take this opportunity to help your community reach its quota in the Fourth War Loan. Buy...and buy to the limit!

You Get $\frac{1}{3}$ More Than You Invest

When held 10 years, Series E War Bonds yield 2.9% interest compounded semi-annually. Then you get back \$4 for every \$3 invested. Buy War Bonds from your Bank...Post Office...Mail Carrier...or Production Credit Association.

Series E War Savings Bonds

Let's All BACK THE ATTACK!

You'll be glad this neighbor asked you to Buy Bonds

ONE day soon, a neighbor may stop by to talk about the Fourth War Loan and the share your locality is expected to play in it. Or, he may talk at a War Bond rally at the high school. Chances are he'll ask if you'll buy more Bonds. Will you look on it as a request for a donation? Or will you look on it as an opportunity to build up the financial reserve every business-like farmer or rancher has to have to run his place profitably?

No need to tell you it takes money to run a war. No need to tell you it's your war, your liberty at stake. But we're all human and just a little bit given to "letting George do it." Only this time we're all George. We've got to do it! And in buying those Bonds, we're doing ourselves as big a service as we are our fighting men and our country. We're building strength—personal financial strength—with which to meet the inevitable problems of tomorrow.

Something Worth Buying

Maybe you have a son off at war. What a homecoming when he gets into his jeans and you've both got those Bonds to fall back on for the machinery and equipment and buildings you'll be needing in the future. And how about the education you've promised yourself you'd give

your children? And that long vacation in the sunshine you and your wife have so long deserved? The only way to have these things is to save the money now. U. S. War Bonds are the safest and most liquid investment you can make for these future needs—needs worth providing for!

For Your Future • For Your Country's Future • For Your Children's Future
